Dear Brother Enright,

Toledo is one of the strongest union cities in this country. This is because of the fundamentals that we have practiced over the decades. When you take of one of us, you get all of us. In that spirit I write to explain our current situation.

If General Motors and the UAW can't come to an agreement at the expiration of our contract, it appears there will be a strike at our Toledo facility. Because of this, we will have a strike line that our members will protect at the entrances of the facility. We view these strike lines as our demand for justice in our workplace.

The strike line is a show of solidarity. We ask you not to break our solidarity, and to not cross our line. We understand the dilemma this causes. This momentary sacrifice is what we need to make the company give us the fair deal we've been seeking for two decades.

We know that we can count on you and your members in this challenging time.

In Solidarity,

Tony Totty  
UAW Local 14 President
