GM TPS UNIT – CHAIRMAN’S REPORT SEPTEMBER 20, 2023

Brothers and Sisters,

I just wanted to touch base with where we are regarding any potential strike at our plant.

At this time, we have not been informed as to which plant or plants will be selected as part of the Stand-Up strike strategy. Should we be selected, the committee will be informed.

We will meet prior to coming out to inform the membership. I have communicated with the Committee and Appointed people so there is a plan in place to make sure the membership is informed as soon as possible. Remember: this could happen on any shift.

PLEASE do not walk off your job until you are informed by a member of the Committee or an Appointed person. We will do our best to inform the membership, up to and including sending a mass text.

One more point I would like to touch on. If you have any questions regarding your strike assignments, please direct those to the Union Hall. Tony and Sue handle the strike, should there be one, and are doing a wonderful job, but your Committee represents you in this facility. Your Committee Representatives will provide you with the most up to date information.

In Solidarity,

Mike Bailey, Vice Chairman
UAW Local 14, Global Propulsion Unit
