January 12, 2018

Brothers and Sisters,

Your Shop Committee has heard and shared your frustration with the new and old turnstile situation at the West entrance of the plant. Through open and honest dialog between the Shop Committee and the Plant Leadership I am pleased to announce that this issue has been resolved. Starting Tuesday January 16, 2018, the turnstiles at the bottom of the escalators will be freewheeling in both directions. Your time will be recorded at the gate closest to the parking lot.

Your Shop Committee, Assistant Plant Manager and Personnel Director met several times since the new gates were installed, including walking to the gates and talking to the membership on the floor. This will eliminate the need to contact security twice to get in and twice to get out should you have a problem with your card.

For the safety of everyone, all GM employees entering at the West Gate must stay in the covered walk path to enter the plant. Areas east and west of the covered walk path are strictly off limits to unauthorized employees. This is not an orange zone and you will not be able to access the plant through this “no access zone”.

Fraternally,

A handwritten signature in cursive script that reads 'Jeff King'.

Jeff King, Chairman and Shop Committee
